COLLEGETOWN: FLEX COVER

- Flex Cover provides customers with the option to replace the fabrics that were originally upholstered to the chair, settee or sofa.
- We utilize the same style of puzzle cut frames across all our products to ensure the foundation of the unit is of the highest quality and comfort.
- Arched springs and commercial grade foam are used so that the same level of comfort in a Flex Cover model is experienced in a traditional single piece frame.
- The process to change out fabric is done without any tools or special training.
- Simply turn the unit over, loosen and remove the large hand knobs and pull the components apart.
- The fabric is "fastened" to the frame with heavy-duty hook and loop fastening that can be pulled apart to remove the cover.
- To complete the re-upholstering, simply take the new covers, slip them over the components in the reverse order from the removal steps.
