

ROOMMATE BEDS

The Roommate collection of loft and bunk beds have been designed and engineered to withstand daily use in active environments. Roommate features:

- Solid planked red oak posts & rails
- Mortise & Tenon Construction
- Bed ends are sealed with our specially formulated ModuV, a 100% resin top-coat, hardened and cured under UV lamps; the most durable, easiest to clean and environmentally friendly finishing process available.

THE MODUV DIFFERENCE

- High-Intensity Lamps are In-Line for Immediate Curing
- ModuV Sealer is Cured and In-Line Sanded for Durability and Rich Looking Appearance
- Curing Permanently Bonds Resin to the Part

- Conveyor Fed with Roll-On Applicators
- 100% of ModuV Resin is Applied to Part
- No Waste
- 99.9% VOC Free

NOTE: Conventional wood finishes such as urethanes, varnishes and lacquers are about 90% solvent based and require air drying. Therefore, approximately 90% of the finish evaporates into the atmosphere meaning only about 10% stays on the part. This makes it far less durable for you and much more harmful to the environment!

- Resists Everyday Abrasions from Books, Paper & Writing Instruments
- Repels Most Food & Beverage Stains
- Prevents Discoloration from Strong Light & Temperature Variation
- Tough Enough to Withstand Harsh Cleaning Solvents - Even Bleach & Nail Polish Remover
- Maintains its Luster After Years of Use

- Rolling Applicators Apply ModuV Resin Directly on to Part
- Rubberized Applicators Apply ModuV Sealer and ModuV Top-Coat Directly on Part – No Waste
- 100% Transfer Rate Allows ModuV to be upwards of 250% More Durable
