## Overview

- Starter: Can be used as a free-standing unit or as the first unit in a “run”
- Adder: Used as “add-on” units in a “run”
- Example:
  - For “free-standing” shelving choose a “starter” for as many as you would like – they will not be connected
  - For a “run” of two units or longer, you will need (1) “starter” and as many “adders” you will be connecting together.
  - (1) Starter with (3) Adders would provide (4) units connected together
- Single Face allows for storage on (1) one side
- Double Face allows for storage on (2) two sides
