

FEATURES & BENEFITS

Seamless, One-Piece Molded Construction

Eliminates seams and gaps, preventing contraband concealment and fluid intrusion.

Ligature-Aware, Rounded Geometry

Smooth surfaces with radiused edges help reduce injury risk and ligature attachment opportunities.

Flexible Vinyl Shell with Foam-Filled Core

Absorbs impact, resists cracking, and delivers supportive comfort without rigid failure points.

Impact, Pick & Puncture Resistant

Maintains structural integrity under aggressive use common in high-acuity environments.

Non-Porous, Easily Sanitized Surface

Supports infection control using commercial cleaners, bleach solutions, or steam.

Color-Through, UV-Stabilized Material

Pigment runs through the material thickness, allowing aggressive cleaning without visible wear or fading.

Weighted for Stability

Integrated core mass helps reduce movement or tipping in high-risk spaces.

Non-Removable Molded Riser Feet

Discourages tampering while promoting airflow beneath the unit for sanitation.

MAS Green & Fire Performance Compliant

Independently certified for low chemical emissions and compliant with CAL TB133 for use in demanding public and healthcare environments.
