

Marcos's frame components are machined into puzzle like pieces on state of the art CNC equipment to within the tightest of tolerances. During the assembly process, these components lock together while commercial adhesives and mechanical fasteners are introduced to further enhance the construction. This process results in the most durable, robust and stable foundation from which to build upholstered furniture. Sinuous wire springs are added, tied together and connected to tape lined clips which prevent squeaking. This improves the longevity and overall strength. Foam is commercial grade for comfort and resiliency. Arm caps and legs are solid Beech.

SF8101 Marco Chair
 32.25"d x 27"w x 35.5"h
 24.5" arm ht 18.5" seat ht

Standard Features:

- Solid Beech arms and legs
- Hardwood engineered plywood frame components, puzzle cut
- Arched, sinuous wire springs
- Lined spring clips to prevent squeaking
- Commercial grade foam seat cushion with polyfiber wrap for added comfort
- Double needle stitch
- Back and seat frame bolted to side assembly
- Standard finishes
 Natural, Light Cherry,
 Cherry, Dark Mocha, Stone

SF8102 Marco Two-Seat Sofa
 32.25"d x 48"w x 35.5"h
 24.5" arm ht 18.5" seat ht

Options

- Cal 133 compliance
- Moisture barrier for seat

Coordinating wood tables and chairs available

SF8103 Marco Three-Seat Sofa
 32.25"d x 69"w x 35.5"h
 24.5" arm ht 18.5" seat ht
