SF801

SF803

Kensington's frame components are machined into puzzle like pieces on state-of-the-art CNC equipment to within the tightest of tolerances. During the assembly process, these components lock together while commercial adhesives and mechanical fasteners are introduced to further enhance the construction. This process results in the most durable, robust and stable foundation from which to build upholstered furniture. Sinuous wire springs are added, tied together and connected to tape lined clips which prevent squeaking. This improves the longevity and overall strength. Foam is commercial grade for comfort and resiliency. Fabric is upholstered to the frame with precision for a tailored fit and finish.

**SF801** Kensington Chair  
 33.5"d x 40"w x 33"h  
 25.5" arm ht 18" seat ht

**SF802** Kensington Two-Seat Sofa  
 33.5"d x 60"w x 33"h  
 25.5" arm ht 18" seat ht
