SF1001

SF1003

Wilmington's frame components are machined into puzzle like pieces on state-of-the-art CNC equipment to within the tightest of tolerances. During the assembly process, these components lock together while commercial adhesives and mechanical fasteners are introduced to further enhance the construction. This process results in the most durable, robust and stable foundation from which to build upholstered furniture. Sinuous wire springs are added, tied together and connected to tape lined clips which prevent squeaking. This improves the longevity and overall strength. Foam is commercial grade for comfort and resiliency. Fabric is upholstered to the frame with precision for a tailored fit and finish.

SF1001 Wilmington Chair
37"d x 38"w x 35.25"h
24.75" arm ht 20.25" seat ht

SF1002 Wilmington Two-Seat Sofa
37"d x 59"w x 35.25"h
24.75" arm ht 20.25" seat ht

SF1003 Wilmington Three-Seat Sofa
37"d x 80"w x 35.25"h
24.75" arm ht 20.25" seat ht

Standard Features:

- Hardwood engineered plywood frame components, puzzle cut
- Arched, sinuous wire springs
- Lined spring clips to prevent squeaking
- 5" Thick commercial grade foam seat cushion with polyfiber wrap for added comfort
- Cushion clipped to chair with "D" ring elastic ties and spring clips
- Pillow back with polyester fiber fill for added comfort | Non-removable
- Single needle stitching
- Tapered block leg: Standard finishes
Natural, Light Cherry,
Cherry, Dark Mocha, Stone

Options:

- Cal 133 compliance
- Moisture barrier for seat
- Double needle stitching
- Contrast stitching (with double needle only)
- (2) Fabrics

Coordinating wood tables and chairs available
