

ModuForm shelving is the perfect solution for all your vertical storage requirements. The beautiful red oak or maple veneer can be finished in our standard stains, or we can custom match to your liking. Tops and bases are bolted together with steel inserts for a secure assembly. Need a single unit? Purchase a starter. If multiple sections are required, simply purchase the necessary adders. All components are sealed and top-coated with ModuForm's industry leading and unique resin. This 100% solid material is roll coated on to each part and cured under UV lamps eliminating harmful VOC's while creating a rugged surface that can be cleaned with bleach and other harsh detergents. For more than 25 years, libraries, media centers, offices and other have turned to ModuForm for their wood shelving needs.
