

TRANSITIONS BEDROOM FURNITURE

**MODU
FORM[®]**

Transitions bedroom furniture serves to support therapy objectives and improve environmental quality.

- The natural red oak wood grain veneers offer a warm and welcoming feel that reflects a level of compassion and vigilance for patient welfare. The biophilic attributes create positive distractions with unique grain patterns and natural elements
- There are no moving parts that can be misused
- All storage is through fixed-in-place shelves making it easy for patients to display any personal items that reflect meaningful memories while offering some control to help reduce fear, anxiety, and stress
- Cabinets are sealed with our specially formulated ModuV, a 100% resin top-coat with non-reactive chemistry, hardened and cured under UV lamps; the most durable, easiest to clean and environmentally friendly finishing process available.
