

FORTRESS BEDROOM FURNITURE

**MODU  
FORM®**

## Fortress Bedroom Collection

Built for the most demanding environments, Fortress bedroom furniture strips away risks while standing unshaken against the unpredictable realities of patient spaces.

Every piece is crafted from solid red oak—selected not just for unmatched strength, but for the warmth and calming effect of its natural grain. Its biophilic qualities bring a sense of comfort to environments that often need it most.

With no moving parts to exploit, Fortress eliminates common failure points. Storage is provided exclusively through fixed-in-place shelving—giving patients space to display personal belongings while giving staff clear lines of sight for enhanced safety and security.

All surfaces are sealed with ModuV®, our exclusive 100% resin finish. Hardened under UV light, this non-reactive top-coat is the most durable, easy-to-clean, and environmentally responsible finish available.

The result: furniture that lowers risks, elevates comfort, and endures—without compromise.
