

## FEATURES & BENEFITS

### **Oak Veneer with Hardwood-Core Plywood Sides**

Constructed with real oak veneer over hardwood-core plywood for authentic wood character and long-term structural performance.

### **Solid Oak Drawer Fronts with Integrated Finger Pulls**

Solid oak drawer fronts feature full-length finger pulls machined directly into the face for durability and a clean profile.

### **High-Pressure Laminate Work Surface**

HPL tops provide a durable, consistent surface designed for everyday use and easy maintenance.

### **3mm Matching Edge with Radiused Corners**

3mm matching banding with softened radii supports impact resistance and a refined appearance.

### **Baltic Birch Drawer Box Construction**

Hardwood Baltic birch drawer boxes provide strength, stability, and dependable performance.

### **Fully Captured Drawer Bottoms**

Drawer bottoms are fully captured to support loads and maintain drawer geometry.

### **ModuV™ Protective Finish System**

Finished with ModuV™ for durability, cleanability, and consistent surface performance.

### **Electromagnetic Case-Clamp Assembly**

Electromagnetic case clamping ensures tight joints, accurate alignment, and structural integrity.

### **Sustainable & Energy-Efficient Manufacturing**

Produced using low-VOC finishes, active recycling practices, and energy-efficient LED lighting.

### **Proudly Made in the USA**

Designed, manufactured, and assembled in the United States by ModuForm.

172 Industrial Rd., Fitchburg, MA 01420  
978.345.7942 | [www.moduform.com](http://www.moduform.com)

## FEATURES & BENEFITS

### Oak Veneer with Hardwood-Core Plywood Sides

Constructed with real oak veneer over hardwood-core plywood for authentic wood character and long-term structural performance.

**High-Density Engineered Wood Deck** – Built to withstand the demands of high-acuity settings, ensuring a solid, stable foundation for patient safety and longevity.

**Deck Size** - Fits 36" x 80" Mattress – Sold Separately

### 3mm Matching Edge with Radiused Corners

3mm matching banding with softened radii supports impact resistance and a refined appearance.

### Baltic Birch Drawer Box Construction

Hardwood Baltic birch drawer boxes provide strength, stability, and dependable performance.

### Fully Captured Drawer Bottoms

Drawer bottoms are fully captured to support loads and maintain drawer geometry.

### ModuV™ Protective Finish System

Finished with ModuV™ for durability, cleanability, and consistent surface performance.

### Electromagnetic Case-Clamp Assembly

Electromagnetic case clamping ensures tight joints, accurate alignment, and structural integrity.

### Sustainable & Energy-Efficient Manufacturing

Produced using low-VOC finishes, active recycling practices, and energy-efficient LED lighting.

### Proudly Made in the USA

Designed, manufactured, and assembled in the United States by ModuForm.

## FEATURES & BENEFITS

### Oak Veneer with Hardwood-Core Plywood Sides

Constructed with real oak veneer over hardwood-core plywood for authentic wood character and long-term structural performance.

### High-Pressure Laminate Top

HPL tops provide a durable, consistent surface designed for everyday use and easy maintenance.

### 3mm Matching Edge with Radiused Corners

3mm matching banding with softened radii supports impact resistance and a refined appearance.

### Oak Veneer Doors with MDF Core

Oak veneer doors are built with an MDF core for flatness and dimensional stability. This construction supports consistent door alignment over time.

### 270° 5-Knuckle Hinges

Heavy-duty 5-knuckle hinges allow doors to open a full 270 degrees for unobstructed access. Precision construction supports smooth operation and long-term durability.

### ModuV™ Protective Finish System

Finished with ModuV™ for durability, cleanability, and consistent surface performance.

### Electromagnetic Case-Clamp Assembly

Electromagnetic case clamping ensures tight joints, accurate alignment, and structural integrity.

### STURDY Act Compliance

Designed to comply with federal stability and tip-over prevention requirements. This supports safer installation in demanding environments.

### Sustainable & Energy-Efficient Manufacturing

Produced using low-VOC finishes, active recycling practices, and energy-efficient LED lighting.

### Proudly Made in the USA

Designed, manufactured, and assembled in the United States at ModuForm's own manufacturing facilities.
