MODUMAXX

Multipurpose Molded Seating

Purposeful comfort. Reliable performance.

DESIGNED WITH INTENT

ModuMaxx brings together purposeful comfort, molded durability, and visual simplicity in seating designed for demanding environments.

Softened geometry, integrated support, and intentional detailing work together to create seating that feels approachable while standing up to everyday use.

Purposeful Comfort

Contoured forms support comfortable everyday use.

Softened Geometry

Rounded transitions create a calmer visual presence.

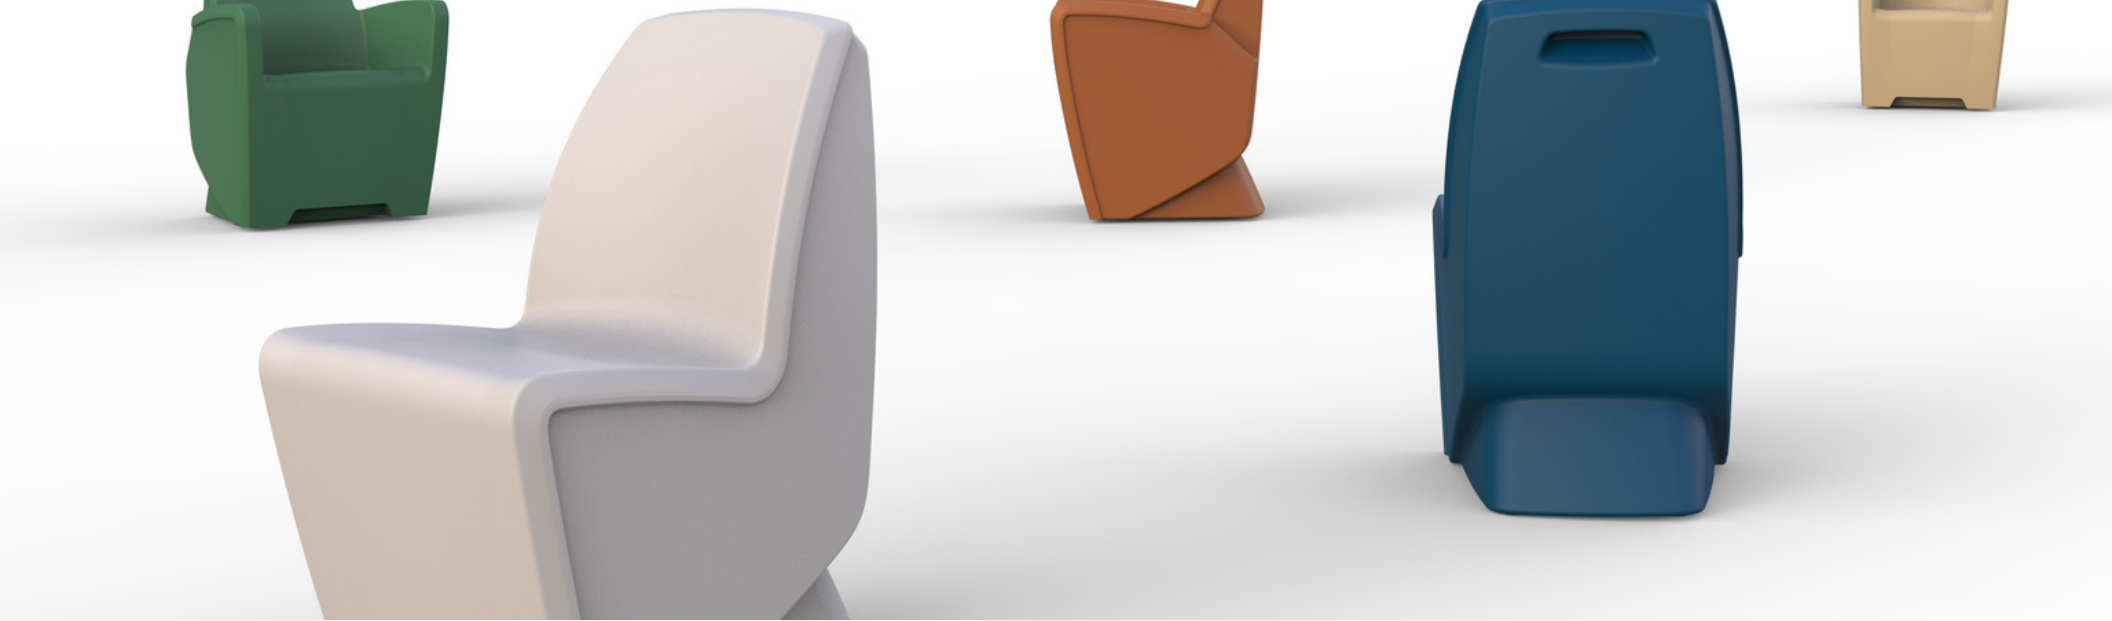

Molded Construction

One-piece molded components support durability and simplify maintenance.

Collection Cohesion

Consistent detailing creates a cohesive visual language.

BUILT TO PERFORM

ModuMaxx combines molded construction, purposeful engineering, and durable materials to create seating designed for long-term performance in demanding environments.

One-Piece Molded Construction

Seamless molded construction reduces joints and attachment points while supporting long-term durability.

Polyethylene Construction

Durable impact-resistant material supports demanding use while remaining easy to clean.

Purposeful Design

Softened transitions and integrated forms create a more resolved visual presence.

Fluid-Resistant Surfaces

Non-porous surfaces support cleaning and simplify maintenance.

Reliable Everyday Performance

Built to support dependable performance across demanding everyday environments.

Designed For High-Use Spaces

Built to withstand demanding environments without sacrificing comfort or appearance.

DESIGNED FOR SPACES THAT DEMAND MORE

ModuMaxx was developed for environments where durability, safety, cleanability, and long-term performance are essential.

Behavioral Health

Supports environments where comfort, durability, and risk-informed design considerations are essential.

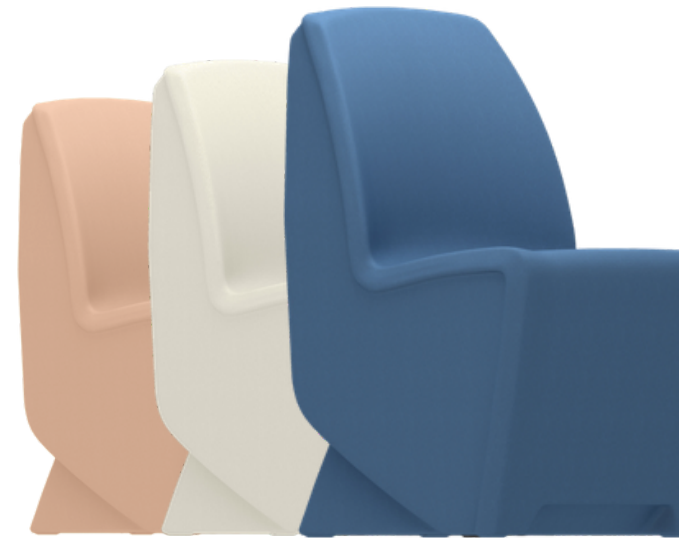

Dining & Activity Spaces

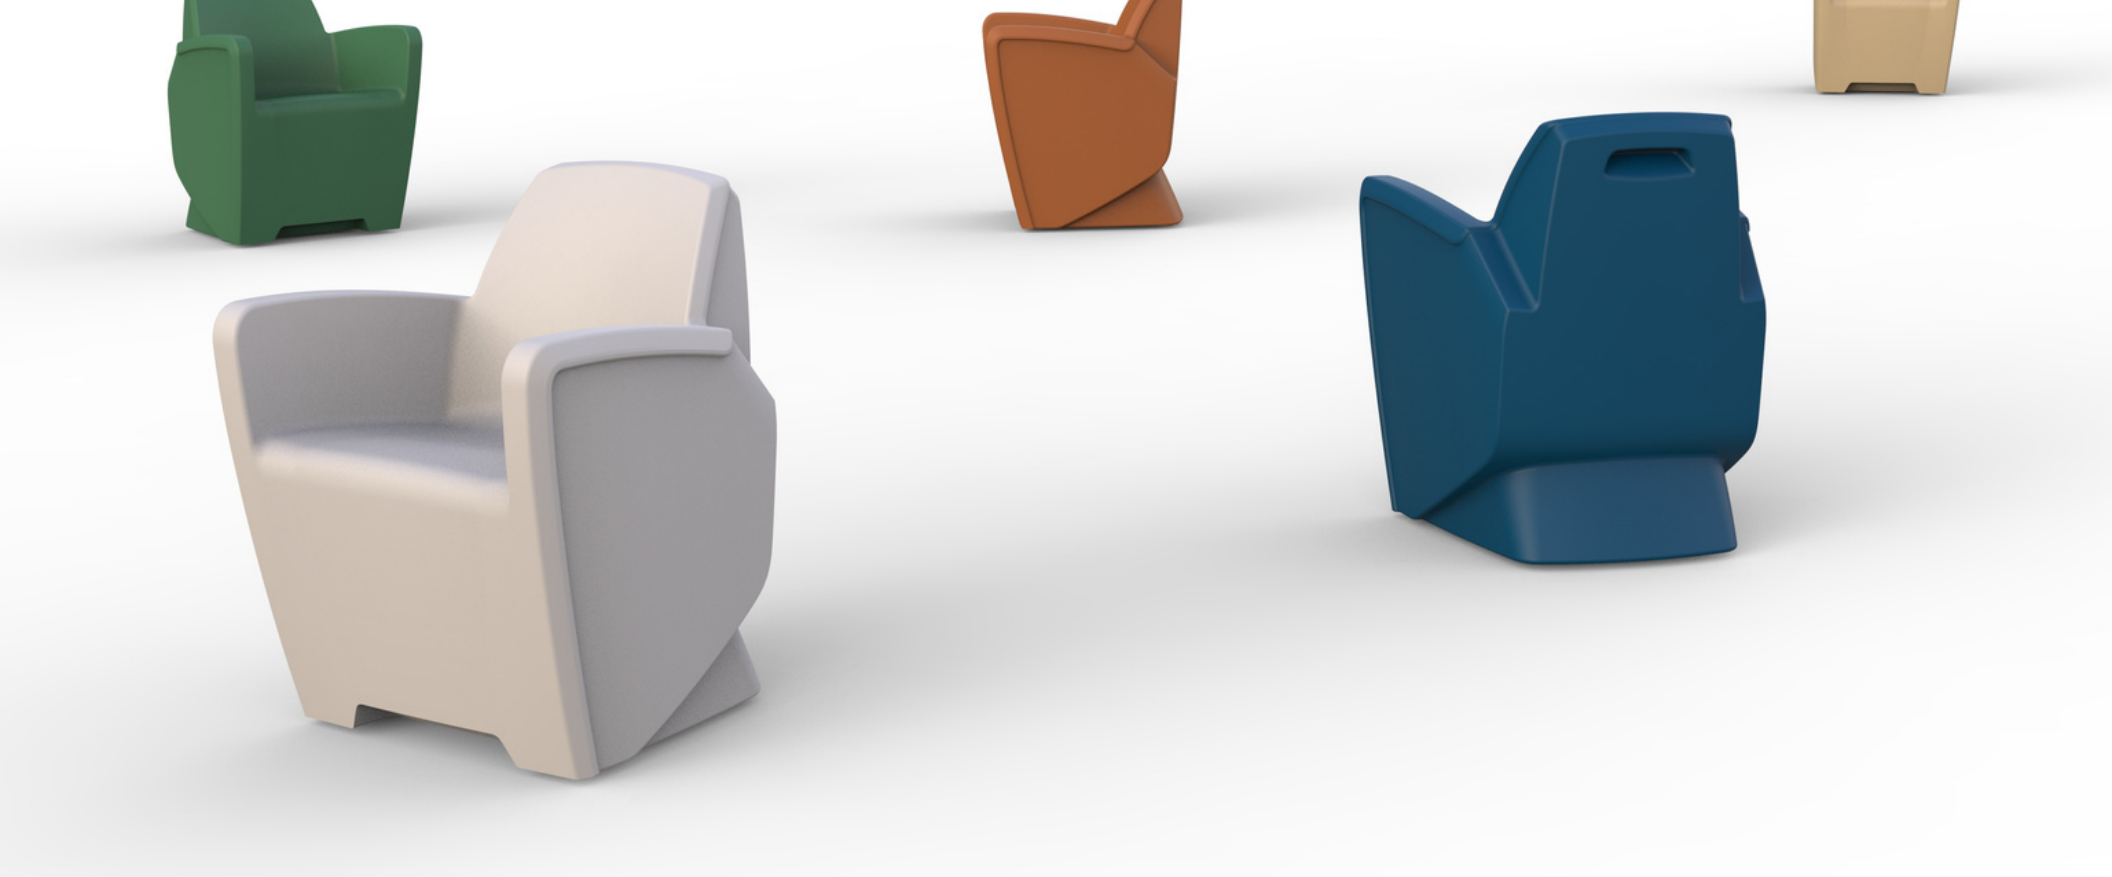

Supports dining, activity, and gathering areas where durability and comfort work together.

Transitional & Supportive Spaces

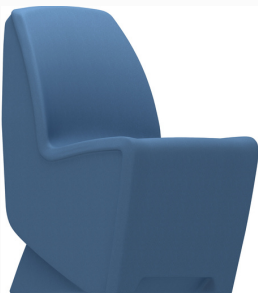

Supports transitional spaces with durable seating designed for everyday use.

MODUMAXX COLLECTION

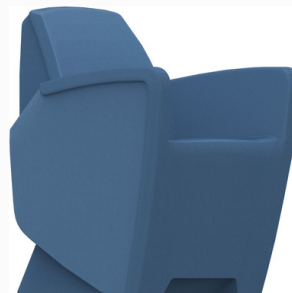

Two seating forms. One cohesive collection. Designed to deliver comfort, durability, and dependable everyday performance.
