MOXIE

Molded Bedroom Furniture Collection

Comfort where it matters. Strength where it counts.

DESIGNED WITH INTENT

Moxie was created to bring together durability, comfort, and visual simplicity in a collection designed for demanding spaces.

Softened geometry, molded construction, and purposeful detailing work together to create furniture that feels approachable while standing up to everyday use.

Softened Geometry

Rounded forms create a quieter visual presence.

Purposeful Simplicity

Intentional forms remove unnecessary visual clutter.

Designed Around Use

Every element serves a purpose.

Collection Cohesion

Consistent detailing creates a unified visual language.

BUILT TO PERFORM

Moxie combines molded construction, purposeful engineering, and durable materials to create a collection designed for long-term performance in demanding environments.

One-Piece Molded Construction

Seamless molded forms reduce joints and attachment points while simplifying long-term maintenance.

Foam-Reinforced Structure

Rigid internal reinforcement increases stability and helps minimize movement and noise.

Polyethylene Construction

Durable impact-resistant material supports everyday use while remaining easy to clean.

Concealed Weighting & Anchoring

Provides stability while maintaining a clean and intentional appearance.

Purposeful Geometry

Softened forms and integrated transitions create a more resolved appearance.

Designed For Long-Term Use

Built to withstand demanding environments without sacrificing appearance.

DESIGNED FOR SPACES THAT DEMAND MORE

Moxie was developed for environments where durability, safety, cleanability, and long-term performance are essential.

Behavioral Health

Designed for environments where comfort, durability, and risk-informed design considerations are critical.

Observation & Crisis Stabilization

Supports spaces where visibility, resilience, and reliability matter every day.

Transitional & Supportive Housing

Creates a more comfortable environment while supporting daily use and long-term dependability.

Demanding Care Environments

Built for settings where cleanability, durability, and consistent performance are essential.
