ROOMMATE BEDS

CREATING BETTER SPACES TO REST, RECHARGE & RECOVER.

ONE COLLECTION. MULTIPLE POSSIBILITIES.

The Roommate collection offers flexible sleeping solutions designed to support a wide range of residence hall, human services, civic, and healthcare settings. From traditional bedrooms and overnight accommodations to lofted residence hall configurations, Roommate helps create spaces that support rest, recharge, and recovery.

Traditional Bed

Creates comfortable and welcoming sleeping environments across a wide range of applications.

Double Bed

Additional sleeping space for overnight accommodations and guest rooms.

Low Loft Bed

Creates valuable under-bed storage while maintaining easy accessibility.

High Loft Bed

Maximizes floor space for storage, study, and personalization.

Bunk Bed

Efficient sleeping solutions for shared occupancy environments.

DESIGNED TO ADAPT

Bedside rails, ladders, storage solutions, sinuous wire spring systems, and ModuForm innerspring mattresses allow Roommate beds to be tailored to the needs of each environment.

Flexible Configurations

Traditional, double, queen, lofted, and bunk configurations help support changing occupancy needs and room layouts.

Tool-Less Hook-Lock System

Select models feature ModuForm's tool-less hook-lock spring system, allowing sleeping height adjustments and multiple configurations without replacing the bed.

Complete Sleep Solutions

Compatible ModuForm innerspring mattresses are available to simplify specification and ensure proper fit.

DESIGNED FOR THE WAY PEOPLE LIVE

Roommate beds and coordinated mattresses are designed to support a wide range of environments. From residence halls and staff housing to firehouses, doc-on-call rooms, and human services settings, Roommate helps create comfortable spaces that support rest, recharge, and recovery.

Residence Halls

Flexible configurations support comfort, storage, and personalization.

Firehouses & Staff Housing

Durable sleeping solutions designed for shared living environments.

Doc-on-Call Rooms

Comfortable spaces that support rest between shifts and overnight stays.

Human Services & Healthcare

Warm, welcoming furnishings designed to support dignity, comfort, and recovery.

FLEXIBILITY WHERE IT MATTERS

Roommate helps facilities create comfortable environments that support changing occupancy needs, room layouts, and living arrangements.

ONE COLLECTION. MULTIPLE APPLICATIONS.

Roommate beds and mattresses support a wide range of occupancy models, room layouts, and commercial living environments. From residence halls and staff housing to healthcare and overnight accommodations, Roommate helps create comfortable sleeping spaces designed to support rest, recharge, and recovery.

RESIDENCE HALLS

Lofted, bunk, and traditional configurations help maximize floor space while supporting student comfort, storage, and personalization.

OVERNIGHT ACCOMMODATIONS

Comfortable sleeping environments designed for guest rooms, training facilities, temporary housing, and overnight stays.

FIREHOUSES & STAFF HOUSING

Sleeping solutions designed to support around-the-clock occupancy, shift schedules, and changing staffing needs.

HUMAN SERVICES & HEALTHCARE

Warm, welcoming sleeping environments designed to support comfort, dignity, and recovery.

FLEXIBILITY WITHOUT COMPROMISE

Available in traditional, double, queen, lofted, and bunk configurations. Roommate helps facilities adapt to changing occupancy needs without requiring multiple furniture platforms.

BEYOND ROOMMATE

Additional sleeping solutions from ModuForm.

COCOON

Rotomolded behavioral health bedrooms with seamless, fluid-resistant construction.

MOXIE

One-piece molded platform beds designed for higher-acuity behavioral health environments.

ZEAL

Contemporary behavioral health bedrooms that combine coordinated design, durable construction, and a welcoming aesthetic.

LOWELL

Designed with traditional styling to create warm and welcoming bedroom spaces.

TRANSITIONS

Behavioral health bedrooms balancing safety-focused details with a warm aesthetic.

FORTRESS

Solid oak behavioral health bedrooms designed for durability and longevity.
