

COLORS + FINISHES

2026 GUIDE

**MODU
FORM®**

COLOR ACROSS MATERIALS

Different materials. Coordinated choices.

ModuForm offers a coordinated color palette across multiple molded material technologies, giving designers greater flexibility to select furniture based on the performance needs of each space.

Molded vinyl and rotationally molded polyethylene offer different performance characteristics while sharing a common group of colors designed to work together across collections.

CORE MOLDED PALETTE

728 | Drift

719 | Earthy

220 | Leaf

445 | Surf

426 | Slate Blue

404 | Cobalt

ONE COLOR. DIFFERENT MATERIALS.

Same palette. Distinct material character.

The same color can appear subtly different across material technologies. Material composition, surface texture, gloss and the way each surface interacts with light can influence its appearance.

426 | Slate Blue

MOLDED VINYL

426 | Slate Blue

POLYETHYLENE

426 | Slate Blue

POLYPROPYLENE

ModuForm maintains color consistency within each material type while coordinating colors across materials. When precise color matching is important, physical samples are recommended.

ADDITIONAL MOLDED COLORS

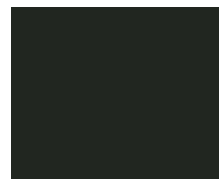

705 | Soothe

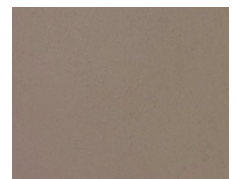

902 | Shade

845 | Flannel Gray

901 | Black

700 | Sandstream

Available on select materials and products.

MOLDED VINYL

Flexible, seamless and available in a coordinated range of colors.

Molded vinyl creates a seamless, non-porous, and pliable seating surface designed for demanding environments. Eight standard colors provide options ranging from quiet neutrals to saturated accents, including six colors shared with the polyethylene palette.

728 | Drift

719 | Earthy

220 | Leaf

445 | Surf

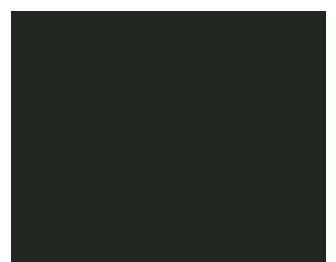

426 | Slate Blue

404 | Cobalt

845 | Flannel Gray

901 | Black

530 Lounge | 719 Earthy

MOLDED POLYETHYLENE

Rigid, seamless and engineered for demanding spaces.

Rotationally molded polyethylene creates a seamless, non-porous, rigid surface designed for durability and easy maintenance. Eight standard colors provide a coordinated range of neutrals and accents, including six colors shared with the molded vinyl palette.

705 | Soothe

728 | Drift

719 | Earthy

220 | Leaf

445 | Surf

426 | Slate Blue

404 | Cobalt

902 | Shade

Aura Lounge | 220 Leaf

COLOR AVAILABILITY

Moxie and Cocoon bedroom products are offered in 426 Slate Blue, 705 Soothe, 728 Drift and 902 Shade.

All eight colors are available on Adore, Aura, Haven, ModuRocker, 50-701, 50-702 and the Moxie Stool (MXST).

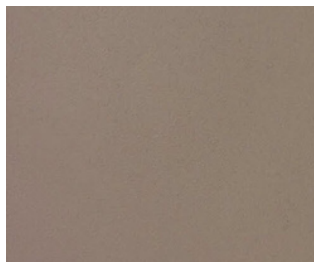

MOLDED POLYPROPYLENE

Lightweight, durable and designed for everyday versatility.

Injection-molded polypropylene provides a durable, easy-to-maintain seating surface in a lightweight construction. Three standard colors offer versatile options for a range of environments, including 426 Slate Blue and 845 Flannel Gray, which coordinate with colors available across other ModuForm material technologies.

426 | Slate Blue

700 | Sandstream

845 | Flannel Gray

ModuMaxx Stacking Chair | 700 Sandstream

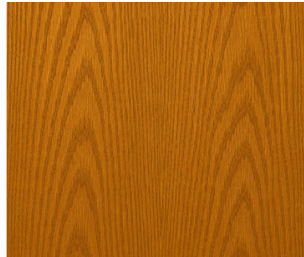

WOOD FINISHES

Natural materials. Distinctive character.

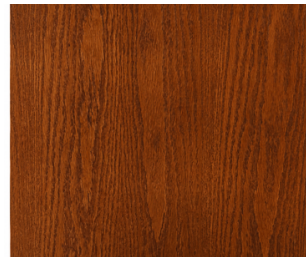

Wood brings natural warmth and character to ModuForm furniture. Our standard finish palette ranges from light, natural tones to deeper contemporary finishes, providing options that coordinate across casegoods, tables and other wood components.

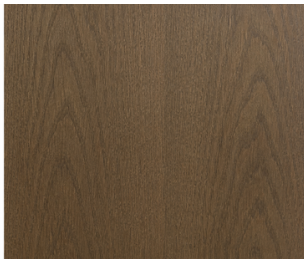

NF | Natural Finish

TK | Teak

CH | Cherry

WL | Walnut

ST | Stone

DM | Dark Mocha

NATURAL VARIATION

Wood is a natural material, and variations in grain pattern, color and texture are inherent characteristics of each piece. These natural variations contribute to the unique character of the finished product. Samples represent the general appearance of each finish and should not be considered an exact match.

LAMINATE FINISHES

Durable surfaces. Coordinated options.

ModuForm's standard high-pressure laminate collection offers durable, easy-to-maintain surfaces across casegoods, tables and other applicable products. Woodgrain selections coordinate with our standard wood finishes, while solid, patterned and specialty options provide additional versatility across a range of spaces and applications.

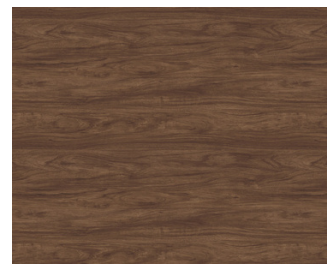

NF | Natural Finish
Castle Oak

TK | Teak
Nepal Teak

CH | Cherry
Select Cherry

WL | Walnut
Thermo Walnut

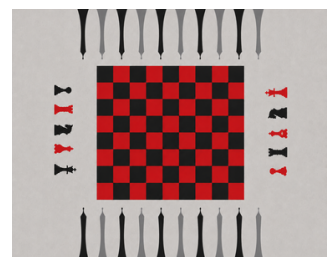

ST | Stone
Anderson Cherry

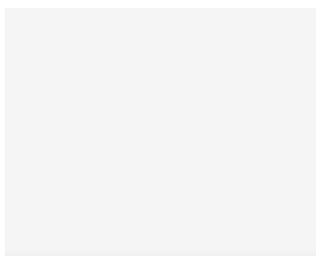

DM | Dark Mocha
Blackened Legno

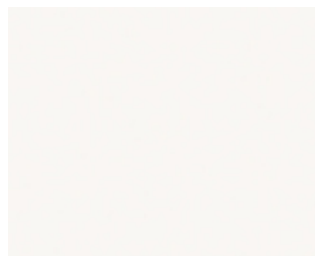

White Nebula

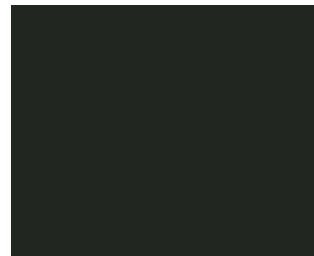

White Nebula Game*

White Writable

Dover White

Black

NM | Hard Rock Maple*

*SELECT TABLE PRODUCTS ONLY

Not available on casegoods.

UPHOLSTERY

Extensive textile choice. Finishing details that complete the piece.

ModuForm upholstered seating is available through extensive graded-in textile programs from CF Stinson, Designtex, Mayer and Momentum, offering a broad range of colors, patterns, textures and performance characteristics. Textile availability and grade vary by manufacturer and pattern; physical samples are recommended when final color and texture are critical.

DESIGNTEX

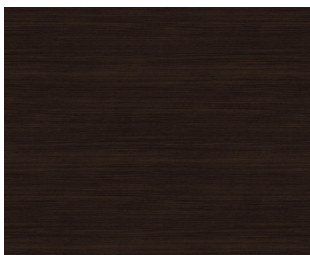

MAYERFABRICS

MOMENTUM

Stinson

WOOD FEET

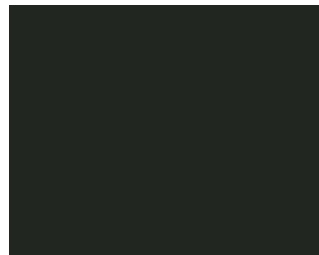

Dark

Available on Bristol, Collegetown, Emma, Joanna, Kensington, Newman, Peabody, Salem, Wilmington

Natural Finish

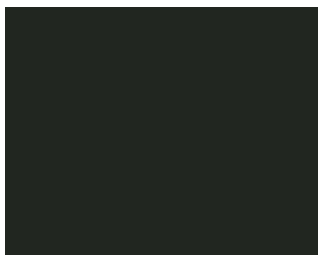

MOLDED PLINTH BASE

Black

Available on 450, 520, 528, 530, 535, 538, 600, Bliss, Sunday Plinth & Rocker, Emma Plinth & Rocker

METAL LEGS

Black

Available on Chelsea, Chelsea Junior, Julia, University

Gray

EXTRUDED FEET

Brown

Available on Dalton, Climb, Connect

EDGE + COMPONENT FINISHES

Finishing details vary by product and application.

Edge treatments and component finishes are selected according to product design, durability requirements and top configuration. Coordinating 3mm edge finishes are used where applicable, while select table designs utilize T-mold or black heavy-duty bumper edging.

3MM EDGE

Coordinating woodgrain or solid-color edge where applicable.

T-MOLD

Used on many round and contoured laminate tops where applicable

BLACK HEAVY DUTY BUMPER EDGE

Standard on 5003, 5005, 5006, and 5007 table tops

GENERAL FINISH NOTES

Colors and finishes shown in this guide are representative and may vary due to material characteristics, lighting, printing and digital display conditions. Colors carrying the same name or number across different material technologies are designed to coordinate but may not be exact matches.

Natural wood varies in grain, color and texture from piece to piece. Physical samples are recommended when precise color, texture or material coordination is important. Product and finish availability may vary by collection.

METAL TABLE COMPONENT FINISHES

5003 Cluster Table - Black Metal Legs | Gray Melamine Seat

5007 Table - Black Metal Legs

MATERIALS IN CONTEXT

Different materials. One coordinated approach.

From solid wood and veneers to upholstery, molded vinyl, polyethylene and polypropylene, ModuForm offers a range of material technologies designed to meet different performance needs while working together across an environment. Color, texture and finish help bring those choices together.

Solid Wood and Veneer

Upholstery

Molded Vinyl

Polyethylene

Polypropylene

Physical samples are recommended when precise color, texture or material coordination is important. Contact ModuForm to request material and finish samples.
